FOR IMMEDIATE RELEASE

New Liquid Free Bath Sheet = Bath Complete!

Bainbridge, Georgia – February 3, 2008 – Bulky liquid soap products are old school, thanks to a new cutting edge product from Hunter's Edge. The liquid free bath sheet is appropriately named BathEZE, due to its ease of use.

Whether you're in the shower, tub, or the great outdoors, simply wet the BathEZE cloth which contains deodorizing soap solids, wash hair and body, and Bath Complete!

BathEZE was developed through a new patented process, which removes bulky liquids from each sheet, leaving scent free deodorizing soap solids ready for re-activation when placed in water.

BathEZE Scent Free Wash Cloths are liquid free, and airline safe. They can be safely placed in your luggage, without the worries of a leaking or crushed bottle, sending unwanted soap all over your hunting supplies.
