## ***LEAVE GAME ATTRACTING SCENT WITH EACH STEP!***

***Bainbridge, Georgia – February 15th, 2015 – The Revolutionary SCENT SHOE, will be available for purchase during the upcoming 2015-2016 deer-hunting season.***

*"Hunters can now literally walk a deer to their stand." Stated Hunter's Edge President and CEO, Jamie Bulger. "This one of a kind, Patent Pending Thermal Over Shoe, will forever change the way hunters use attractants and urine based scents." Explained Bulger. "Its unique design is 10-times more effective at putting scent on the ground than a drag rag, while keeping scent off your boots and hands". Bulger further stated.*

*"The SCENT SHOE slips over the toe of a hunters boot or shoe, and when stretched backwards underneath the bottom, attaches to the heel. Located on each side of the SCENT SHOE, is a uniquely designed clip, which holds a custom fitting removable scent pad. The scent pad is designed to absorb liquid, and then apply it to the ground through body weight transfer, each and every time a hunter takes a step". Explained Bulger. "The SCENT SHOE Scent Pad also doubles as a Scent Wick, when attached to overhanging limbs". Bulger further explained.*

*"I created the Scent Shoe out of the need for a more specialized scent dispersal method, and to eliminate human scent transformation from the sole of a hunters boot into their hunting area". Bulger Stated.*

*Scent Shoe Refill Pads sold separately.*
